GEMINI May 21-June 20

Witty, clever and sociable, your mental prowess is great. You have a flair for words and a razor-sharp wit. You are quick to pick up new ideas and concepts. Your mental agility is impressive.

In astrology, we use the term planets for the Sun and Moon for the sake of convenience. If you were born on April 22, you would look for the position of the planets 21 days later on May 22.
